Status of Application

1. Applicant's response, filed April 26, 2010, has been entered in the application. Claims 1-4 and 6-7 are pending. Claims 6-7 are newly added.

Claim Objections

2. Claim 1 is objected to because of the following informalities: in claim 1, line 17, it appears as though "cross members" should be --floor frames-- for consistency with the specification and drawings -- note that the width-direction brackets are not attached to the cross members but to the floor frames. In claim 1, lines 20-21, the phrase "wherein the first pair of brackets and the second pair of brackets are configured to be a flange" is grammatically informal in that plural elements are referred to, and as such, it appears as though the reference should recite plural flanges or that each bracket is a flange (for example: --wherein the first pair of brackets and the second pair of brackets are configured to be flanges-- or --wherein each of the first pair of brackets and the second pair of brackets is configured to be a flange--). Appropriate correction is required.

Allowable Subject Matter

3. Claims 2-4, 6 and 7 are allowed.
4. Claim 1 is objected to, but would otherwise be allowable upon correction of the issues described above.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Art Unit: 3618

Claim 1 is objected to for minor informalities as discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
